1000 Stories Zinfandel, California

The ageing process starts in traditional American and French wine barrels. The next step is the introduction of the wine to bourbon barrels. Part of the blend was aged in new bourbon barrels from the Independent Stave Company. This process is similar to ageing in wine barrels, but with a flavor profile unique to the charred bourbon barrels – vanilla, dried herbs and a hint of caramel. The final step of the process was the most grand: the blend completed its barrel ageing in old bourbon barrels from famed distilleries such as Heaven Hill and Four Roses.
